Fenglin Liu
Sinopec Lubricant Company
No.6 West Road, Anning Zhuang
Haidian District, Beijing-100085
China

Dear Mr. Liu:

Infineum International Limited has asked us to consider approving, for use in GE diesel engines, a diesel engine lubricating oil identified as **Sinopec Railroad Diesel Engine Oil G5 20W-40** code **IM 12825A**. It is our understanding that this is a **SAE 40** grade diesel engine lubricating oil formulated with **Infineum M7233** additive package and **Infineum SV151 VI** improver in **ExxonMobil APE** base stock. The nominal alkalinity level of this lubricating oil is **13** by ASTM D 2896.

After reviewing the information provided to us by Infineum International Limited, it is our technical opinion that this oil will provide satisfactory service in GE diesel engines. Therefore, we are granting "Fundamental Approval" to **Sinopec Railroad Diesel Engine Oil G5 20W-40** Generation 4LL lubricating oil for use in GE diesel engines.

If you have any questions, please feel free to contact me.

Sincerely,

Najeeb Kuzhiyil
Senior Lubricants and Fuels Technologist
