1) PRODUCT AND COMPANY IDENTIFICATION

Product name: Crosshead Diesel Cylinder Oil 5070
Common characters: liquid can be dissolved in oil
Use: Oil suitable for low speed cylinder of cross-head marine diesel engines
Producer: LUBRICANT COMPANY, SINOPEC CORP.
Service tel.: 800-810-9886
Supplier: LUBRICANT COMPANY, SINOPEC CORP.
Hot line: 400-810-9886
Website: www.sinolube.com
Compile Date: 2008-03-24

2) COMPOSITION/INFORMATION ON INGREDIENTS

<table>

<td>70-100</td>
</tr>
</tbody>
</table>

3) HAZARDS IDENTIFICATION

Potential health effects: The International Agency for Research on Cancer (IARC) has determined there is no sufficient evidence for the carcinogenicity in experimental animals of used the oil. Under normal conditions of intended use, this product does not pose a risk to health. Excessive exposure may result in eyes, skin or respiratory irritation.

4) FIRST AID MEASURES

Eye: Flush with water for 15 minutes. If irritation occurs, get medical attention.
Skin: Flush skin with water, and then wash with soap and water. Get medical attention.
Inhalation: Remove victim to fresh air and provide oxygen. Get medical attention.
Ingestion: Do not induce vomiting. Get medical attention.
Note to Physician: Cure according to symptom

5) FIRE FIGHTING MEASURES

Extinguishing media: Carbon dioxide, foam, dry chemical and water fog.
Extinguishing Method: spray
Combustion products: Fumes, smoke, carbon monoxide, sulfur oxides, aldehydes and other decomposition products, in the case of incomplete combustion.
Forbidden media: water

6) ACCIDENTAL RELEASE MEASURES

Protective Measures: Wear appropriate personal protective equipment when cleaning up spills.
FOR LARGE SPILLS: Remove with vacuum truck or pump to storage/salvage vessels.

FOR SMALL SPILLS: Soak up residue with an absorbent such as clay, sand or other suitable material. Place in non-leaking container and seal tightly for proper disposal.

7) HANDLING AND STORAGE

Storage
Do not store in open or unlabeled containers. Store in a cool, dry place with adequate ventilation. Keep away from open flames and high temperatures.

Empty container
Empty containers retain residue (liquid and/or vapor) and can be dangerous. DO NOT PRESSURIZE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND OR EXPOSE SUCH CONTAINERS TO HEAT, FLAME.

8) EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure controls
Provide adequate ventilation to control airborne concentrations below the exposure guidelines/limits.

Respiratory Protection
If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, an approved respirator must be worn.

Eye Protection
Chemical Goggles, or Safety glasses with side shields

Hand Protection
Use protective gloves which is chemically resistant to this material

Personal protection
Use protective clothing and shoes which are chemically resistant to this material.

Note to sanitation
Wash hands with water an use cosmetic to protect

9) PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Brown and transparent liquid

Odor
No peculiar smell

Flash point (COC) °C
(GB/T 3536) >220

10) REACTIVITY AND STABILITY

Stability
Stable (at room temperature)

Conditions and materials to avoid
Extreme heat and high energy sources of ignition and strong oxidizers

Hazardous decomposition product
Product does not decompose at ambient temperatures.

Hazardous polymerization
Will not occur.

11) TOXICOLOGICAL INFORMATION

Acute Toxicity
ORAL TOXICITY (RATS): Practically low toxic (LD50: greater than 5000mg/kgBW). — Based on testing of similar products and/or the components.

INHALATION TOXICITY (RATS): Practically low toxic (LC50: greater than
10000mg/m³). Based on testing of similar products and/or the components.

12) ECOLOGICAL INFORMATION

<table>
<thead>
<tr>
<th>Characteristics</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Ecological toxicity</td>
<td>Though long time infiltration, it may produce ecological toxicity</td>
</tr>
<tr>
<td>Mobility</td>
<td>When released into the environment, adsorption to sediment and soil will</td>
</tr>
<tr>
<td>Persistency and degradability</td>
<td>This product is expected to be inherently biodegradable</td>
</tr>
<tr>
<td>Bioaccumulative potential</td>
<td>Bioaccumulation is unlikely due to the very low water solubility of this</td>
</tr>
<tr>
<td></td>
<td>product; therefore bioavailability to aquatic organisms is minimal.</td>
</tr>
</tbody>
</table>

13) DISPOSAL CONSIDERATIONS

| Waste disposal                          | Product is suitable for burning in an enclosed, controlled burner for fuel  |
|                                         | value. In addition, the product is suitable for processing by an approved   |
|                                         | recycling facility or can be disposed of at an appropriate government waste |
|                                         | disposal facility.                                                        |
| Note to release                         | Use protection things, including protection gloves, glasses and respirator, |
|                                         | because explosion may happen heating in the container.                     |

14) TRANSPORT INFORMATION

| Transport                               | The transport department work abiding by all the law, rule and regulations  |

15) REGULATORY INFORMATION

| National regulation                     | Solid waste pollution prevention and cure law of The People’s Republic of   |
|                                         | China                                                                      |
| State Regulation                        | Water pollution standard of local government                              |

16) OTHER INFORMATION

| Other data                              | Get information and manual from the market department or technology        |
|                                         | department.                                                               |
