

## Flashing Oil For Circulatory Systems Of Paper Machine

Flashing oil for circulatory systems of paper machine is proportioned by superior base oil and functional agent through internationally advanced process. The oil is suitable for flashing of circulatory system of paper machine.

Its brands include 32, 46, 68, etc. according to kinematic viscosities at 40°C.

### Advantages

- ⊙ Good rust preventing ability and anti-oxidation performance
- ⊙ Good compatibility with circulation oil of paper machine

### Performance

Meet the following performance specification:

- ⊙ QB/T 2768-2006

### Applications

- ⊙ Suitable for flashing of circulatory system prior to filling of lubricant for a new paper machine or prior to oil change

### Typical properties

Items	Flashing oil for circulatory systems of paper machine		
	32	46	68
ISO viscosity grade	32	46	68
Kinematic viscosity (40°C), mm <sup>2</sup> /s	32.5	44.8	67.6
Viscosity index	100	98	98
Flash point (COC), °C	220	226	235
Pour point, °C	-18	-18	-18
