

Motorcycle Gear Oil

Advantages

- ⊙ Outstanding carrying capacity, preventing scratching and wear of gears
- ⊙ Excellent lubricity, ensuring stable operation of transmission
- ⊙ Perfect oxidation stability and anti-rust ability, prolonging service life of oil and gears

Performance specification

The product meets the following specifications:

- ⊙ API GL-5
- ⊙ MIL-L-2105D
- ⊙ GB 13895-92

Applications

- ⊙ Suitable for transmission system of motorcycle in high speed/vibration, high speed/low torque, low speed/high torque operating modes

Typical properties

Items	Motorcycle gear oil
SAE viscosity grade	80W/90
Kinematic viscosity (100℃), mm ² /s	16.00
Pour point, ℃	-30
Flash point (COC), ℃	228
